## **Assignment 1**

**5<sup>th</sup> August 2023**

### **Module 2 : Front End Development**

*Submission Requirements: Please upload your codes in PDF File on Google Classroom in the relevant Assignment section.*

*Note: Plagiarism is a serious violation. Zero marks will be awarded in case plagiarism is found. You are required to perform the following tasks.*

## **Part 1:**

**Task 1:** Install VS code onto your system and install relevant html extensions for better coding environment

**Task 2:** Create a HTML file with proper formatting having name “Name\_RollNumber”

**Task 3:** Insert heading tags into your html file

**Task 4:** Insert image into your html file

**Task 5:** Set your page title to “Name\_RollNumber”

```
<> Riffat_78.html > html
1  <html>
2  |   <head>
3  |   |   <title> Riffat_78 </title>
4  |   |   <body>
5  |   |   |   
6  |   |   </body>
7  |   </head>
8  </html>
```

## Part 2:

Task 2:

Create a folder with “Name\_RollNumber”

Task 3:

Create a file named as “index.html” in it

Task 4:

Use html standard file format while creating any html file

Task 5:

Assign a title to your html file as “Name\_RollNumber”

```
<> index.html > html > head > meta
1  <!DOCTYPE html>
2  <html lang="en">
3  <head>
4  |   <meta charset="UTF-8">
5  |   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6  |   <title>Riffat_78</title>
7  </head>
8  <body>
9
10 </body>
11 </html>
12
```

Task 6:

Write your biodata using all text related html tags

i.e h1,h2,p,pre etc.

```
<div class="Bio">
|   <h1><mark><b><u> Part - 2 </u></b></mark></h1>
</div>
<div>
|   <h1>Task - 6</h1>
|   <h3>Write your biodata using all text related html tags
|   |   i.e h1,h2,p,pre etc
|   </h3>
|   <p>My name is <b><i><em>Riffat Jabeen</em></i></b> and I live in <b><i>Lahore,
Pakistan</i></b>. I'm doing
|   |   <b><i>BSc Electrical Engineering</i></b> from <b><i>University of
Engineering and Technology Lahore</i></b>.
|   |   I've no siblings. My hobbies include
|   |   <b><i>sketching</i></b> and <b><i>book reading</i></b>.
|   </p>
</div>
```

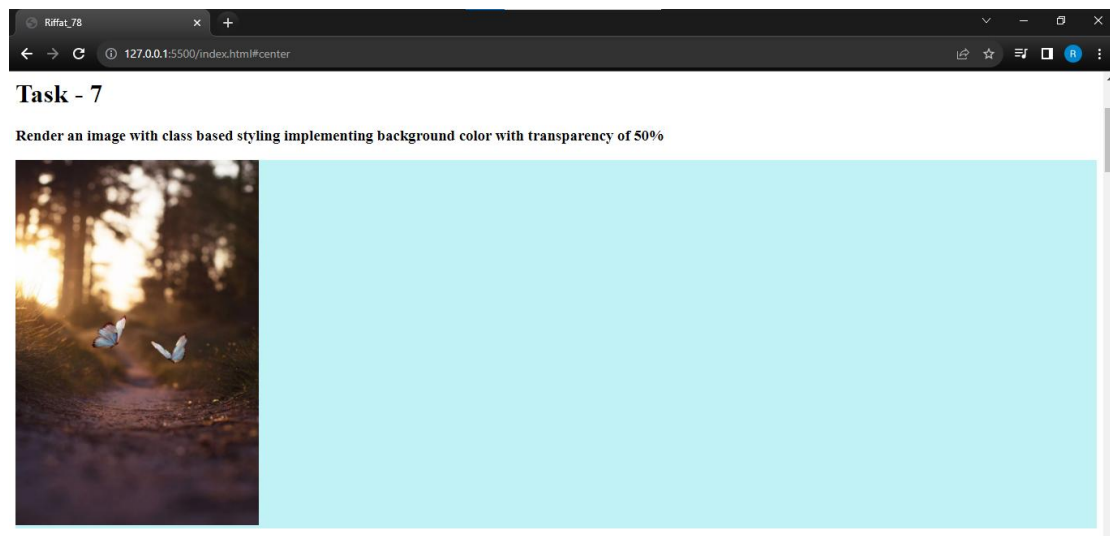

Task 7:

Render an image with class based styling implementing background color with transparency of 50%.

```
<h1>Task - 7</h1>
<h3>Render an image with class based styling implementing background color with
transparency of 50% </h3>
<p class="styling">  </p>
```

```
# style.css > ...
1  .styling {
2    |    background-color: rgba(130, 229, 238, 0.5);
3    |
4    }
```

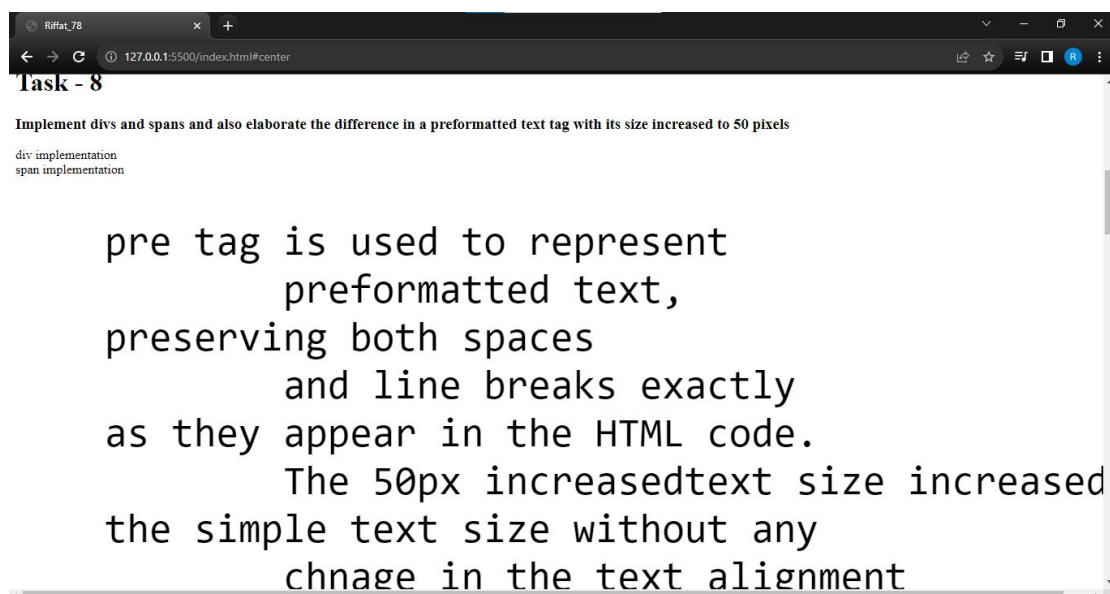

Task 8:

Implement divs and spans and also elaborate the difference in a preformatted text tag with its size increased to 50 pixels.

```

<h1>Task - 8</h1>
<h3>Implement divs and spans and also elaborate the difference in a preformatted
text tag with its size increased to
|   50 pixels</h3>
<div>
|   div implementation
</div>
<span>
|   span implementation
</span>
<pre>
pre tag is used to represent
| |   preformatted text,
preserving both spaces
| |   and line breaks exactly
as they appear in the HTML code.
| |   The 50px increasedtext size increased
the simple text size without any
| |   chnage in the text alignment
</pre>

```

Task 9:

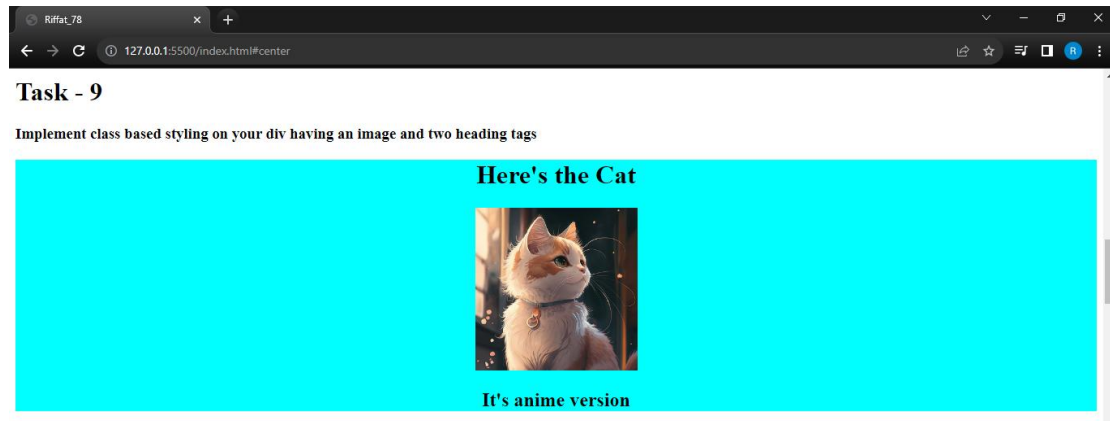

Implement class based styling on your div having an image and two heading tags

```

<h1>Task - 9</h1>
<h3>Implement class based styling on your div having an image and two heading tags</h3>
<div class="decor">
|   <h1>Here's the Cat</h1>
|   
|   <h2>It's anime version</h2>
</div>

```

```
.decor{
  background-color: aqua;
  text-align: center;
  width: 100%;
}
```

Task 10:

Implement a span and perform margins and paddings and width separately to it and explain the results in the same row but three different columns.

```
<h1>Task - 10</h1>
<h3>Implement a span and perform margins and paddings and width separately to it and
explain the results in the same
|   row but three different columns</h3>
<span>
  <table>
    <tbody>
      <tr>
        <td class="margin"> In a table layout, you can use the margin
        property to add space around the
        |   content within each cell (column) of the table</td>
        <td class="padding">Use the padding property to add space inside the
        |   cells. This added 30px extra
        |   space</td>
        <td class="width"> Width is used to set the width of the column
        |   which in this case is 200px</td>
      </tr>
    </tbody>
  </table>
</span>
```

```

<style>

    .margin {
        border: solid;
        border-color: #brown;
        border-width: thin;
        width: 200px;
        background-color: #indianred;
    }

    .padding {
        padding: 100px;
        background-color: #lavenderblush;
    }

    .width {
        width: 200px;
        background-color: #indianred;
    }

</style>

```

Task - 10

Implement a span and perform margins and paddings and width separately to it and explain the results in the same row but three different columns

<p>In a table layout, you can use the margin property to add space around the content within each cell (column) of the table</p>	<p>Use the padding property to add space inside the cells. This added 30px extra space</p>	<p>Width is used to set the width of the column which in this case is 200px</p>
--	--	---

Task 11:

Move to a specific section of a page using html

```

<div>
    <h1>Task - 11</h1>
    <h3>Move to a specific section of a page using html</h3>
    <a href="#center">Click here to go there</a>
</div>

```

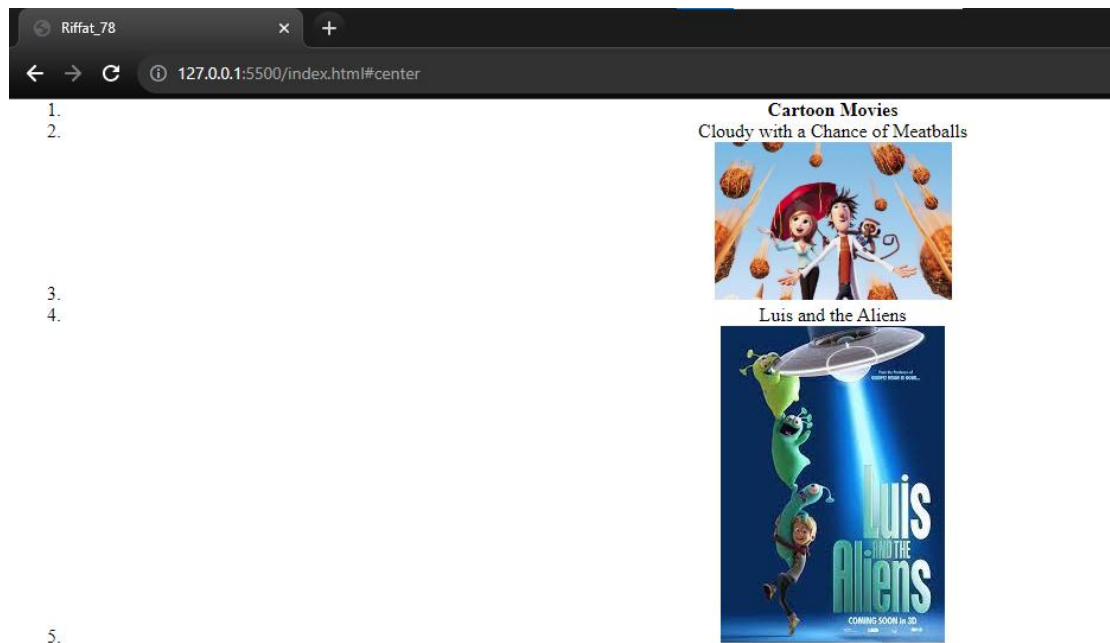

## Task - 11

Move to a specific section of a page using html

[Click here to go there](#)

Task 12:

Route to the other page using html

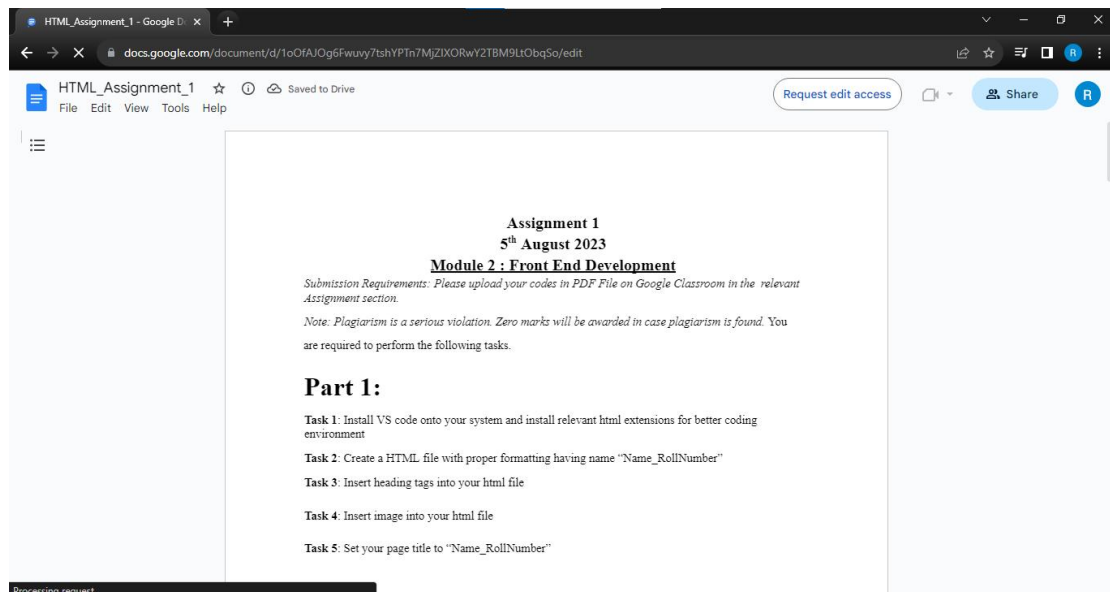

```
<h1>Task - 12</h1>
<h3>Route to the other page using html</h3>
<a href="https://docs.google.com/document/d/
1oOfAJ0g6Fwuvy7tshYPTn7MjZIXORwY2TBM9Lt0bqSo/edit">Go to google
classroom</a>
```

## Task - 12

Route to the other page using html

[Go to google classroom](#)

Task 13:

Move to a specific section of the other page using html

Task 14:

Move to a specific section of the other page using html

```
<div>
  <h1>Task 13, 14</h1>
  <h3>Move to a specific section of the other page using HTML</h3>
  <a href="https://www.daraz.pk/#https://www.daraz.pk/?spm=a2a0e.home.header.dhome.60674076pwjwlu">Daraz logo</a>
</div>
```

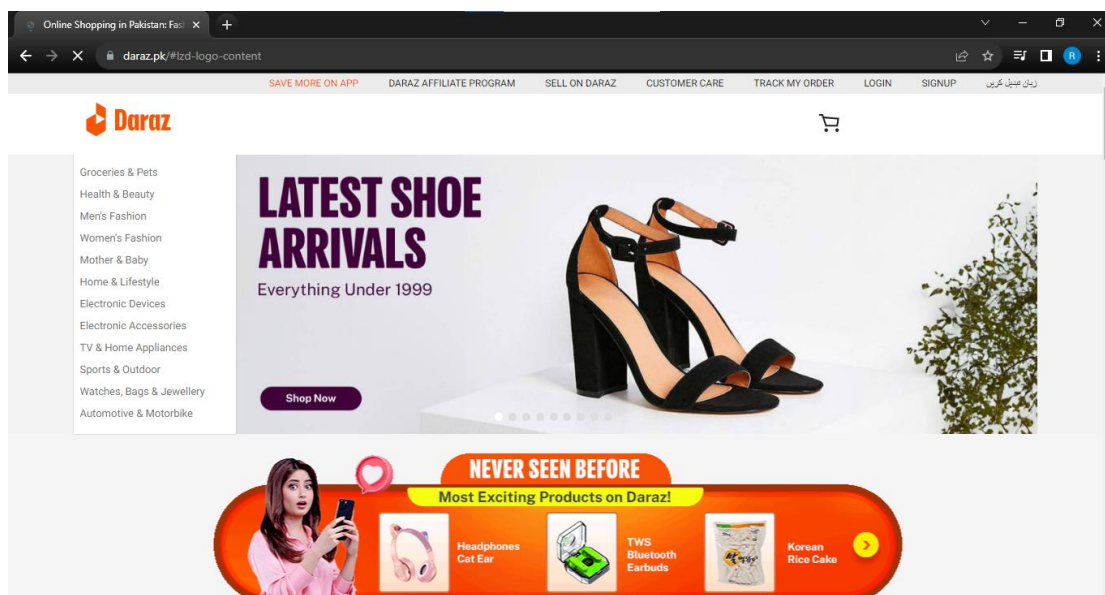

## Task 13, 14

Move to a specific section of the other page using HTML

[Daraz logo](#)

Task 15:

Style your name in such a way that it looks white with background #569874 and inner space on the left

\*Note: use inline styling

```
<h1>Task - 15</h1>
<h3>Inline name styling</h3>
<h1 style="color: white;
background-color: #569874 ;
text-align: right;">Riffat Jabeen</h1>
```

Task 16:

Style your name in such a way that it looks white with background #569874 with opacity 0.8 and inner space on the left

\*Note: use class based styles

```
<h1>Task - 16</h1>
<h3>class based name styling</h3>
<h1 class="name">Riffat Jabeen</h1>
```

```
.name{
  color: white;
  text-align: right;
  background-color: rgba(130, 229, 238, 0.8);
}
```

## Part 3:

Task 1:

Create a table like this using html

Time	1	2	3	4	5	6	7	8	9	10
Distance	5	10	15	20	25	30	35	40	45	50

```

<div class="Bio">
|   <h1><mark><b><u> Part - 3 </u></b></mark></h1>
</div>
<div>
|   <h1>Task - 1</h1>
|   <h3>Create a table like this using html </h3>
|   <table>
|       <tr>
|           <th>Time</th>
|           <td>1</td>
|           <td>2</td>
|           <td>3</td>
|           <td>4</td>
|           <td>5</td>
|           <td>6</td>
|           <td>7</td>
|           <td>8</td>
|           <td>9</td>
|           <td>10</td>
|       </tr>
|       <tr>
|           <th>Speed</th>
|           <td>5</td>
|           <td>10</td>
|           <td>15</td>
|           <td>20</td>
|           <td>25</td>
|           <td>30</td>
|           <td>35</td>
|           <td>40</td>
|           <td>45</td>
|           <td>50</td>
|       </tr>
|   </table>
</div>

```

## Part - 3

### Task - 1

Create a table like this using html

Time	1	2	3	4	5	6	7	8	9	10
Speed	5	10	15	20	25	30	35	40	45	50

## Task 2:

Create an ordered list containing center aligned image and title (at least 5 points)

```
<h1>Task - 2</h1>
<h3>Create an ordered list containing center aligned image and title (at least 5
points) </h3>
<div id="center">
  <ol>
    <li><b>Cartoon Movies</b></li>
    <li>Cloudy with a Chance of Meatballs</li>
    <li></li>
    <li>Luis and the Aliens</li>
    <li></li>
  </ol>
</div>
```

## Task - 2

Create an ordered list containing center aligned image and title (at least 5 points)

- 1.
- 2.

Cartoon Movies  
Cloudy with a Chance of Meatballs

- 3.
- 4.

Luis and the Aliens

- 5.

## Task 3:

Create a description list and enlist data of your 5 hobbies

```

<div>
  <h1>Task - 3</h1>
  <h3>Create a description list and enlist data of your 5 hobbies </h3>
  <dl>
    <dt><b>Sketcing</b></dt>
    <dd>
      I discovered this hobby of mine in the board exams of 9th which turned
      out to be both unfortunate and
      fortunate and somehow I managed to explore and engage in this hobby.
    </dd>
  </dl>
  <dl>
    <dt><b>Reading</b></dt>
    <dd>
      I actually discovered this hobby from someone on YouTube. They
      recommended some novels, and after
      reading a few of them, I found out that reading books has become my new
      hobby.
    </dd>
  </dl>

```

```

  <dl>
    <dt><b>Badminton</b></dt>
    <dd>
      I have loved playing Badminton since I was a child, and I still enjoy
      playing it. I even achieved a good
      position in a competition at the zonal level once
    </dd>
  </dl>
  <dl>
    <dt><b>Baking</b></dt>
    <dd>I enjoy baking, and I'm pretty good at making lasagna, pizza, and cakes.
      Interestingly, the cakes I bake
      never turns out to be soft
    </dd>
  </dl>
  <dl>
    <dt><b>listening songs</b></dt>
    <dd>Apart from either good or bad hobby i do listen to music a lot
      irrespective of language and
      understanding i just enjoy listening, Beat does matter
    </dd>
  </dl>
</div>

```

## Task - 3

Create a description list and enlist data of your 5 hobbies

**Sketcing**  
I discovered this hobby of mine in the board exams of 9th which turned out to be both unfortunate and fortunate and somehow I managed to explore and engage in this hobby.

**Reading**  
I actually discovered this hobby from someone on YouTube. They recommended some novels, and after reading a few of them, I found out that reading books has become my new hobby.

**Badminton**  
I have loved playing Badminton since I was a child, and I still enjoy playing it. I even achieved a good position in a competition at the zonal level once

**Baking**  
I enjoy baking, and I'm pretty good at making lasagna, pizza, and cakes. Interestingly, the cakes I bake never turns out to be soft

**listening songs**  
Apart from either good or bad hobby i do listen to music a lot irrespective of language and understanding i just enjoy listening, Beat does matter

#### Task 4:

Create an input field of type number allowing user to enter only numbers in the range of 50 to 100.

```
<div>
  <h1>Task - 4</h1>
  <h3>Create an input field of type number allowing user to enter only numbers in
the range of 50 to 100</h3>
  <label for="numberInput">Enter a number between 50 and 100:</label>
  <input type="number" id="numberInput" name="numberInput" min="50" max="100"
value="50">
</div>
```

## Task - 4

Create an input field of type number allowing user to enter only numbers in the range of 50 to 100

Enter a number between 50 and 100:

#### Task 5:

Create a table like the one shown below using html

Time	Distance
1	5
2	15

```

<div>
  <h1>Task - 5</h1>
  <h3>Create a table like the one shown below using html</h3>
  <table>
    <tr class="align">
      <th>Time</th>
      <th>Distnce</th>
    </tr>
    <tr>
      <td class="align">1</td>
      <td class="align">5</td>
    </tr>
    <tr>
      <td class="align">2</td>
      <td class="align">15</td>
    </tr>
  </table>
</div>

```

```

.align{
  width: 300px;
  text-align: right;
}

```

## Task - 5

Create a table like the one shown below using html

Time	Distnce
1	5
2	15
